Safety improvements on Hume Highway, near Gundagai from Monday 9 October

The NSW Government is funding this $623,000 project between Warralong Road and Gobarralong Road, approximately ten kilometres north of Gundagai, to improve safety on the Hume Highway.

Roads and Maritime Services will carry out the work, which involves replacing over 100 large concrete road slabs and installing new linemarking and road markers. This road rebuilding work will extend the life of the road, improve the road surface and reduce future maintenance costs.

We will be working between 7am and 5pm from Monday to Friday and between 7am and 1pm on Saturdays until Friday 24 November 2017, weather permitting. We will let you know in advance if we need to do any work outside of these times.

How will the work affect you?

Both southbound lanes of the Hume Highway will be closed and the northbound lanes changed to single, two-way lanes during the work. The changeover across the northbound and southbound lanes will occur at existing incident management crossovers on the highway.

There will be some restrictions to property and road access during the work.

Gobarralong Road access to the Hume Highway will be closed. A detour will be in place through Coolac via Coleman Street, Coolac Road and the Muttama Road overpass.

The Mingay Road crossing will remain open throughout the work under traffic control.

Access to properties on the southbound side of the project and south of Mingay Road will be closed to the Hume Highway during the work. North and southbound access to the highway will be available via Mingay Road with detour signs in place to assist motorists.

Residents living on the northbound side of the project will continue to access the Hume Highway via the Muttama Road overpass at Coolac, as normal.

There will be some noise associated with this work. We will make every effort to minimise noise by arranging the work in stages at different locations and keeping noisy work activities for later in the day where possible.
Traffic changes
There will be some temporary traffic changes to ensure the work zone is safe.
Reduced speed limits of 40, 60 and 80 kilometres/hour will be in place 24 hours per day for the length of the work.
Motorists are asked to be aware and take extra care while driving through the work area, for road user and worker safety.
Please allow an extra eight minutes travel time while travelling through this area, keep to speed limits and follow the directions of traffic controllers and signs.

Contact
If you have any questions, please contact our Project Engineer, Lasith Abeysekara, on 02 6226 9105 or email Lasith.ABEYSEKARA@rms.nsw.gov.au. For more information on our projects, visit rms.nsw.gov.au.
Thank you for your patience during this important work.
