

SEWERAGE TREATMENT WORKS BEGIN

Council has commenced work on the construction of the new sewerage treatment works in Gundagai. The initial phase of the project includes the construction of a new entry road to allow heavy machinery and construction vehicles access to the site. The existing fenced area will be widened, and safety fencing installed to isolate the golf course from the construction area. Existing trees have been pruned back and some removed to allow workers access to the perimeter of the expanded area. The existing plant is in the vicinity of 100 years old and has suffered some flood damage in recent years, particularly 2012. The replacement of the treatment works is being made possible with funds from the Federal Government, NSW State Government and Cootamundra-Gundagai Regional Council.

BPAY FOR FORMER GUNDAGAI COUNCIL RATEPAYERS

Ratepayers in the former Gundagai Shire Council area are now able to pay their rates and / or water accounts via BPay. To facilitate this, it was necessary for Council to change the format of Assessment numbers to a uniform length. Ratepayers will notice the new numbers on their 2018/19 rate notice, to be issued in July 2018. **How it works— Step 1:** Locate the BPay logo on your notice. **Step 2:** Log on to your online banking—Choose the BPay payment option. **Step 3:** Enter the payment details—Enter the BPay Biller code, Customer Reference Number and amount you are paying. **Step 4:** Click Pay—Your bill payment is now complete. It is important to ensure that you use the correct reference number so your payment can be allocated to the relevant account (either rates or water). Your rates customer reference number will start with the number **1** and your water customer reference number will start with the number **2**. **Questions?** Council 1300 459 689 with any enquiries.

OPERATIONS REPORT

Parks and Gardens staff pressure washed Fisher Park Grandstand for the weekend of Rugby League. The fields were line marked at Fisher Park and Clarke Oval. Staff have commenced weeding, spraying and mulching the garden beds in Jubilee Park. The large tree stump in Margaret Street was pulled out of the road and levelled off ready to be sealed. Updated signage has been installed at both Cootamundra and Gundagai Community Recycling Centres. Residents are reminded that the CRC sheds are available to deposit household problem waste such as; batteries, paint, E-Waste (televisions and computer equipment), fluoro tubes, left over acid and alkaline gas bottles and oils. The garden beds and trees along Muttama Creek Bird Walk were trimmed, allowing better access for pedestrians. Staff repaired a water leak in the irrigation at the Cootamundra Cemetery. Herbicide will be used for the eradication of various broadleaf weeds on Council's sporting fields, footpaths, laneways and other public areas during the month of July. The CBD and Woolworths car park in Gundagai were cleaned and swept with the footpath sweeper. Gundagai parks staff have recently rejuvenated the garden areas in front of the Council Office. The old garden areas were replenished with composted soil and planted out with seedlings. In addition, the gardens, and the front and rear facades of the building were treated with a cleaning agent to remove the mould and dirt which had collected on the panels over the years. Work on the Burley Griffin Way upgrade through Stockinbingal is nearing completion with only some signage and delineation remaining. These works have now improved the road pavement from the Stockinbingal Road intersection through the township to the railway crossing at the western end of town. Associated drainage and the replacement of the guard rail formed part of the project as well as sealing the car parking area near the old railway station. These works were funded by Roads & Maritime Services. Work has commenced on shoulder widening along Yeo Yeo Hampstead Road. This work will continue from the last widened section and involve an additional kilometre of shoulder widening. This work is being funded from the Roads to Recovery Program. Pavement stabilisation works have been undertaken on Nangus Road near Nangus. This work included shoulder widening and is part of the ongoing improvements to the road pavement and safety by creating a wider sealed pavement. Maintenance grading is now underway on Bundarbo Road and will continue towards Nanagroe Road. Another crew will carry out maintenance on gravel roads in the Nangus area. Footpath works are underway on Boundary Road near Hurley Street Cootamundra. This work will see the old sealed path replaced with a new concrete path suitable for shared access for pedestrians and cyclists. Footpath works are also planned for Punch Street Gundagai. Work is continuing on the construction of Rathmells Lane. Crews are currently shaping and compacting the subgrade pavement. Over the next week suitable base material will be placed and compacted in preparation for bitumen sealing in the coming weeks. Nashes Lane causeway reconstruction will commence shortly, and as such, will be closed to all traffic from Friday 13 to Monday 16 July. Traffic will detour via Cowcumbula/Hovell Streets and Back Brawlin Road and vice versa during this road closure. Initial works will be on the Cootamundry Creek causeway with further works on the Muttama Creek causeway to be undertaken later in July.

The Mobile Donor Centre will be at Mirrabooka in Gundagai, on Tuesday 24 July from 9am – 3pm. Make your appointment by calling 13 14 95. Or <https://my.donateblood.com.au/app/appointments/book>
