

## CGRC Villages Strategy

### What is the CGRC Villages Strategy?

The Villages Strategy is a strategy to deal specifically with the villages of CGRC. The strategy will define the villages and rural communities of the LGA by establishing qualifying measures for categorisation as a village, establishing appropriate zoning principles for villages and devoting sections to each village to explore site specific population and economic growth opportunities as well as opportunities for renewal. This strategy will include input from RMS, DPI, ARTC and Goldenfields Water. By engaging in this community consultation you are making a valued contribution to the recommendations in the final strategic document. The final document will be used to inform rezonings, development design guidelines, economic strategies, Council's Long Term Financial Plan and so on

### Methods of Engagement

There are a number of ways you can get involved in the Villages Strategy. We would love to hear what you think from a resident, neighbour or visitor perspective. You are welcome to make a submission using any of the following methods:
