

.....PRIORITY INFRASTRUCTURE PROJECT.....

Proposed Cootamundra Pool Water Park Program

Cootamundra–Gundagai Regional Council (CGRC), identified the need of Pool Water Park in Cootamundra area.

Cootamundra, despite being a small country town, has a lot to offer various leisure and recreational activities to its communities and visitors. However, this area has a lack of a much popular facility for the community/visitors; pool water parks.

The water Park is one of the fastest growing categories of entertainment venue, with an annual growth rate of over 7% globally per year. Temperature is soaring around the nation during the summer and to beat the heat, many people plan trips to nearby water parks which is the perfect way to spend a summer day.

Considering the benefits the water park provides to the communities and visitors, Council proposes to install Water Park in Cootamundra swimming pool with the estimated construction cost of \$400k.

This new addition of this amusement park to the Cootamundra pool will be the first, one and only in the region and without any doubt will help attract additional tourists/visitors to the town. This waterpark amusement park normally features water play areas, such as swimming pools, water slides, splash pads, spray grounds (water playgrounds).

The most common & popular types of water park designs are Aqua play rain forests, Body slides, flow rides, family raft rides etc. as shown in Fig 1.1, Fig 1.2 Fig 1.3 & Fig 1.4 below. The selection and design of best component of pool Water Park will be finalized following extensive community consultation.

Estimated cost of construction of pool Water Park at Cootamundra pool is \$400k
