

## DMT CITRONELLA COLLAR

- The DMT citronella collar is the premium citronella collar available on the market that is 100% waterproof and features a vibration sensor to detect when the dog is barking. Now you can rest assured knowing that only the barking dog wearing the citronella collar will activate the unit. The refill canister holds up to 10 refills and each refill will emit up to 70 sprays making this Citronella bark collar very cost effective. The battery life for the citronella is generally 3-4 Months..

### **How the Citronella collar works to stop dog barking:**

1. The citronella dog collar sits firmly around the dog's neck with the actual unit situated underneath their neck (above the dog's voice box). The vibration sensor on the citronella Collar will detect when the dog is barking and then emit a very short burst of spray from underneath the neck up towards the dog's nose.
2. The short burst of spray from the citronella collar creates a distraction whenever the dog is Barking and takes the dog's attention away from whatever the dog is barking at. Most dogs don't like the smell of citronella spray so using it is a deterrent is a great way to stop dog barking. Dogs will learn within a few weeks of wearing the citronella collar that their nuisance barking causes the unpleasant spray of citronella and learn that the only way to avoid the citronella spray is to stop barking.

### **Features:**

- Waterproof
- Won't be set off by another dog barking
- Low Spray Indicator
- Adjustable strap to fit most dog's necks
- Includes 1 citronella refill canister
- 30 Day Money Back Guarantee

## **STOP DOG BARKING - SUPER BARK STOP**

- Great for neighbour's nuisance barking dogs! Superior high power speaker to (up to 130dB)
- Designed to stop dog barking up to 50ft away (10 metres) Sonic and ultrasonic deterrent modes
- High and Low sensitivity for quiet or loud dog barking, adjustable Bark Stop Selector, 1 bark, 2 bark, 3 bark and 4 bark
- Can be used indoors or outdoors (water resistant). Your dog can bark before activating the unit.)
- Adjustable Volume Wall Mountable
- Battery Operated (requires 4 "D" batteries, not included) Can be operated using an optional 6v AC adaptor
- 1 Year Warranty 90 Day Upgrade Guarantee

### **How the Super Bark Stop works to stop nuisance dog barking:**

If your dog is barking within 50ft (High sensitivity mode) of the Super Bark Stop, the ultrasonic device emits a high pitched ultrasonic deterrent sound to distract the dog from barking. Depending on the breed and nature of the dog, they will learn within a few weeks that their barking causes an unpleasant ultrasonic sound and learn that the only way to avoid the ultrasonic sound is to stop nuisance barking.
