

Existing trees to be retained

Proposed trees:  
Chinese Elm (Ulmus parvifolia)

Proposed planting for texture, screening and separation of play space.

Grass areas

Stabilised decomposed granite  
Width varies from 700mm to 1200mm.

Natural soffall (to AS4422)  
To 300mm depth. Depth of soffall in existing playground needs to be increased. Soffall not required in imaginative playzones (Note 12) unless play equipment is installed. If soffall not required mulch these areas.

Proposed fence line  
Relocate fence panels from existing fence as shown. Match any additional panels to existing.

Timber seats/ low decks.  
Max 450mm height.

Timber totem poles.  
Refer images.

Bin/water point

Oversized rocks for climbing, sitting and balancing.  
Max 450mm height.

- NOTES
1. Retain existing slide. Dotted line indicates required safety distance around slide.
  2. 6+ children play area with Ixo MultiPlay Unit by Proludic (Ixo- J2524). See images.
  3. Proposed shade trees. Mulch under trees in playground to 75mm depth only as not part of soffall area requirements to AS4422.
  4. Proposed path to connect playground to existing path running through the park
  5. Retain existing seating area. There is space for bin and water point.
  6. Play area for toddlers/ younger children enclosed by fence.
  7. Proposed fence. Remove fence from north and east section of existing playground and relocate to enclose play area for toddlers/ younger children. Additional panels of fencing will be required.
  8. Retain existing swing. Dotted line shows required soffall area to AS4422.
  9. Proposed textured planting with totem poles. Works may be staged at a later date.
  10. Winding path through play area.
  11. Capital Nest Swing from Moduplay (S-8793-14). Refer images. Safety requirements shown by dotted line. Possibility to do rubber soffall in safety zone underneath swing.
  12. Imaginative play areas with oversized rocks and timber pieces and/or play equipment for younger children.
  13. Timber seats/ low deck around base of trees. Works may be staged at a later date.
  14. Add planting to screen residential fence and create privacy. Works may be staged at a later date.
  15. Access gates from northern end of park.
